SUMMARY

Results-oriented leader with 15 years of experience in support operations and team development for Fortune 500 clients. Proven expertise in managing multi-tier support teams, optimizing processes, and leveraging data for operational excellence. Demonstrated success in enhancing customer satisfaction, improving service workflows, and driving cross-functional collaboration to resolve complex issues. Passionate about end-user support and fostering innovative, scalable solutions.

CORE SKILLS

Leadership & Management: Team Leadership, Coaching Skills, Training Design, Cross-Functional Collaboration

Technical & Analytical: Data-Driven Decision Making, Data Analysis, Workforce Management Tools, User Research, Agile Methodologies

Operational Excellence: Product Strategy, Process Optimization, CSAT & KPI Metrics, Vendor Management, Customer Support Experience

EXPERIENCE

Trust & Safety Product and Operations Lead · Accenture

Mar 2017 – May 2025

- Directed a high-performing team of 10 to 80+ content specialists and 5 leads, ensuring operational excellence and robust end-user support while leveraging data analysis techniques to monitor key performance metrics.
- Defined and implemented product and process enhancements that improved quality metrics and user-facing performance indicators, aligning support functions with evolving platform needs.
- Collaborated with engineering, product, and policy teams to optimize internal workflows, effectively addressing user issues and reducing friction across systems.
- Facilitated cross-functional planning sessions and performance reviews to track KPIs, guide strategic improvements, and adjust roadmaps based on quantitative insights.
- Coordinated with stakeholders on policy changes, sprint planning, and incident response to maintain quality support during rapid scale.
- Developed and optimized a new support workflow using Agile methodologies, enhancing team efficiency and surpassing performance targets through improved response times.
- Resolved critical customer issues by aligning internal methods with new platform requirements, thereby boosting client satisfaction and streamlining operational processes.

Operations Manager · teleNetwork

2014 – 2017

- Oversaw multi-channel support (chat, email, social, phone) for 20+ specialists, enhancing the overall customer support experience and ensuring high-quality service delivery.
- Designed and implemented a 24/7 chat scheduling system based on historical and forecasted volume, effectively applying workforce management tools to optimize staffing and scheduling.
- Led customer experience initiatives that increased chat CSAT by 7% in one month and reduced social media response times by 40%, demonstrating strong data-driven decision making.
- Partnered with senior leadership to integrate frontline feedback into process revisions and training programs, fostering continuous process optimization and enhanced support quality.
- Managed a written communication initiative for a Fortune 50 client, significantly boosting engagement by 400% while ensuring message alignment with product standards and contractual obligations.

Senior Training & Implementation Manager · teleNetwork 2010 – 2013

- Created tailored training programs and operational frameworks for large-scale support systems, resulting in improved team efficiency and enhanced customer satisfaction.
- Led cross-functional quality and training teams to assess and roll out major tool transitions (e.g., chat platforms, new product features), which improved team adaptability and streamlined communication processes.
- Conducted needs analysis and designed onboarding experiences that matched enterprise client expectations, leading to faster integration and higher client satisfaction.
- Delivered Wi-Fi support training for a Fortune 50 client by managing rollout timelines and ensuring support consistency across teams, which enhanced client trust and service reliability.

EDUCATION

Bachelor of Arts, Philosophy · Texas State University, San Marcos, TX 2010

PROFESSIONAL DEVELOPMENT & CERTIFICATIONS

Certified Scrum Product Owner® (CSPO®), Scrum Alliance® (2025): Agile product ownership, backlog prioritization, and stakeholder collaboration.

Scrum Foundation Professional Certificate, CertiProf (2025): sprint planning, backlog management, and iterative product development.

SQL Essential Training Certificate, LinkedIn Learning (2025): querying, joining, filtering, and analyzing relational data.

Introduction to Python Certificate, SoloLearn (2025): variables, loops, functions, and data structures for scripting and automation.
